Overhead Crane Ticket Saskatoon

Overhead Crane Ticket Saskatoon - An overhead crane is normally utilized in industrial environments. Likewise called a bridge crane, this equipment consists of parallel runways spanned by a traveling bridge. The hoist is the part which lifts materials. The hoist travels along the bridge.

The overhead crane when used for maintenance or manufacturing applications will offer more efficiency compared to a mobile crane. This type of crane is also normally used in the steel industry. Steel is handled using an overhead crane at each and every phase of the manufacturing process, from the time the raw materials are poured into the furnace up to the time the finished coils are lifted onto trains and trucks.

Overhead cranes are also commonly used in the auto industry and paper business. The removal of heavy press rolls and other machinery at paper mills is done utilizing bridge cranes. Bridge cranes are used to install the heavy cast iron paper drying drums and other huge machines utilized in paper mills.
